Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

The examiner acknowledges the submission of the amendment filed on 06/30/03. At this time claims 2, 4, 8, 10 are canceled, claims 1, 3, 7, 9 and 13 are amended. Thus claims 1, 3, 5-7, 9, 11-16 are pending in the instant application.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1, 3, 5, 6, 7, 9, 11-16 are rejected under 35 U.S.C. 103(a) as being unpatentable over the prior art disclosed in the instant application in view of Liu et al. The prior art disclosed in the instant application (see Fig. 3) shows the packaging structure of the claimed invention including the flange 144 except a ringed projection being formed on the top of the heat slug so that the molding compound encapsulating the chip would not cover the portion of the heat slug externally exposing the outer heat dissipating surface. Liu discloses the heat slug 1 having ring projection 13 integrally formed with the slug to prevent the encapsulating compound to cover the portion of the heat slug 1 (col. 1, lines 59—67). It would have been obvious at the time the invention was made to a person having ordinary skill in the art to have one or more ring projections as disclosed by Liu et al. in the structure shown in the instant application as the prior art for allowing the exposed portion of the heat slug to efficiently dissipate heat. Regarding to claims 5, 6, 11, 12, 14, 15, Liu discloses the ring projection except

specifying its size. It would have been an obvious matter of design choice to have the ring projections of being from 10 μm to 20 μm in height and from 100 μm to 500 μm in width since such a modification would have involved a mere change in the size of a component. A change in size is generally recognized as being within the level of ordinary skill in the art. *In re Rose*, 105 USPQ 237 (CCPA 1955).

The method steps of claims 13-16 are necessitated by the device structure as shown on Fig. 3 of the instant application and disclosed by Liu et al.

Response to Arguments

3. Applicant's arguments with respect to claims 1, 7 and 13 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 2835

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
